

## **Little Budworth BT Exchange – Fed up with slow broadband?**

This map shows the geographical area, i.e. Little Budworth but also Cotebrook, Rushton, North Eastern parts of Eaton, either side of the A54 running towards Winsford and either side of the A49 by Cotebrook and the eastern fringes of Utkinton.

**PLEASE REGISTER (no obligation)** for Superfast Fibre Broadband with two organisations;

<http://www.connectingcheshire.org.uk>

A joint council project with a provisional fund of >£30m; including >£3m from Broadband Delivery UK (BDUK), £15m European Regional Development Fund (ERDF) and >£7m private sector match.

Also, please register directly with British Telecom;

<http://www.superfast-openreach.co.uk/where-and-when/>

**ADSL2+...Little Budworth BT Exchange is already slower than it's surrounding exchanges**

The following BT Exchanges that border Little Budworth have already been upgraded to use ADSL2+, as of January 2013; Tarporley, Sandiway, Kelsall and Winsford.

ADSL2+ update provides speeds of up to 24Mb - that's up to three times faster than previous, standard ADSL speeds. Even at longer distances from the exchange speeds are higher and more reliable, all at no additional monthly cost to the customer!

**ACT NOW – DON'T LET US GET LEFT BEHIND EVEN MORE – REGISTER NOW!**

Please copy this or pass it on to any friends, family or neighbours that live within the Little Budworth BT exchange area – put this on community notice boards in village halls, pubs, etc. and/or pass this on as an email.

The more people who register, the less time we may have to wait and the less risk that we will never be upgraded. Let's try and be the BT Exchange area with the highest percentage of people to register!
